

MOURI TECH®

mSecComply
Streamlining Compliance Management

Manage Multiple Security Compliance Audits Seamlessly

In today's global business landscape, compliance is a paramount challenge faced by organizations across industries. The ever-evolving regulatory environment demands swift and efficient solutions. At MOURI Tech, we have been at the forefront, partnering with clients to navigate these challenges successfully through innovative technology solutions.

With a rich history of excellence and a forward-thinking approach, MOURI Tech has been a trusted partner for businesses seeking to conquer the complexities of compliance management.

Our team of experts has a proven track record of helping organizations achieve compliance excellence while driving operational efficiency.

Manual audit and compliance management processes are resource-intensive, error-prone, and lack real-time visibility, leading to compliance risks, operational inefficiencies and compliance fatigue.

MOURI Tech's **mSecComply**, a cutting-edge Security Compliance Management Software, is offered as a SaaS solution/ On-prem deployment. Built with years of experience and expertise, mSecComply is designed to empower organizations to conquer compliance challenges effectively, additionally comprising modules such as Vendor Risk Assessment, Internal Audit, Policy Management, and Risk Management.

Key Features

Controls Mapped to Compliance Frameworks

Initiate infosec program by leveraging established controls mapping and assessment-aligned security frameworks like SOC 1, SOC 2, SOX, ISO 27001, PCI DSS, HIPAA, TISAX etc.

Seamless Collaboration with Auditors

Enhance auditing efficiency by directly involving external auditors on the platform, exchanging artifacts, and real-time monitoring

Robust Document Management

Store and manage compliance documents securely, with role-based access

Streamline Workflows and Task Management

Elevate infosec stance with automated workflows for task management, alerts, and notifications

Evidence Collection

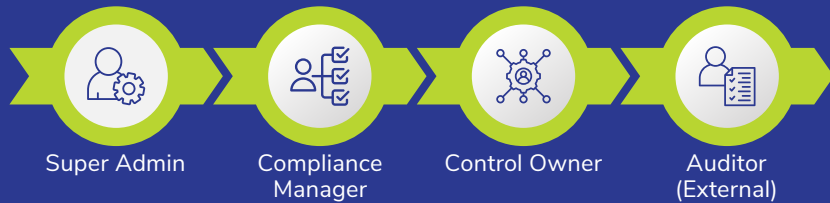

Automate evidence collection to save time on gathering thousands of artifacts across mapped controls. 'Test once and use multiple times' strategy for common controls

Transparent Audit Trail

Maintain a clear record of compliance activities

Compliance Process / Role Overview

Streamline Compliance and Audit Excellence with mSecComply

Compliance Operations

Simplify compliance operations through flexible, centralized control management, and streamlined workflows. With built-in control crosswalks and easy evidence collection, mSecComply enhances efficiency and scalability while eliminating redundancy.

Audit Management
