

HRAssist

Your Personal HR Chatbot

Powered by SAP Leonardo

MOURI TECH[®]
GLOBAL ENTERPRISE SOLUTIONS

“Your business relies on maximizing your employees’ effectiveness.”

It becomes difficult for an organization to evaluate HR admins and managers’ task considering they repeatedly handle common administrative issues and hence do not really get time to perform high-value tasks.

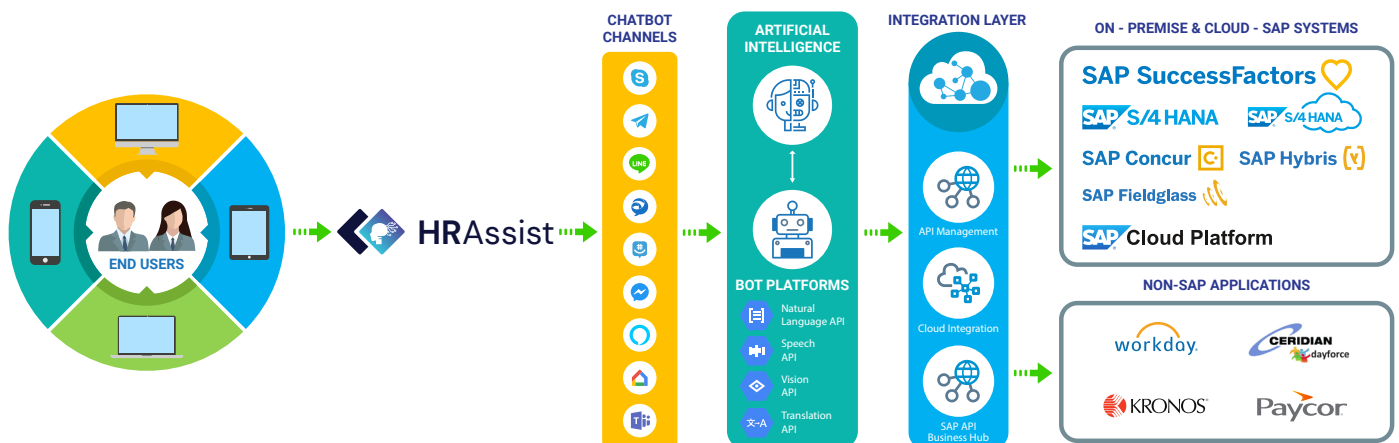

MOURI Tech’s HRAssist Chatbot powered by SAP Leonardo efficiently resolves the issues and facilitate HR to focus and address another important task. HRAssist, upon implementation increases productivity, reduces error, and lowers the operational cost of the organization.

How HRAssist AI application (Chatbot) reduces human error?

(software that simulates a natural language conversation through messaging app, mobile app, voice activated interfaces and website)

- ✓ It is easy to customize
- ✓ Can provide real-time tracking of live conversation between the bot and user
- ✓ Can support multi-language
- ✓ Conversational and accurate
- ✓ 24/7 support

What is MOURI Tech Conversational AI Framework?
